- “Getting There stresses independent and safe use of transportation methods and the importance of good social skills when out and about.

Covers walking on community streets, taking a bus, understanding community signs-all within the context of a clever story line. “

Attainment’s It’s All Part of the Job DVD

- “It’s all Part of the Job features real life workers with developmental disabilities and interviews with their employers. Focuses on job skills everyone needs to remember.

Sections include: Begin, Dress right, Be on time, Be ready, Be a team member, Be friendly, Review.

And when a worker has questions, employers say it’s best to ask, listen and learn.

Informative and fun to watch, this video was shot on location at actual job sites.”

Attainment’s Everybody’s Working DVD

- “Everybody’s Working features success stories of five employees with disabilities: Larry took advantage of opportunities for advancement; Bob made innovations at the greenhouse; Maurice overcame skepticism to become a valued employee; Sue decided to pursue a new career. Each biography triggers discussion on important issues.”

Omega-3 can help children with ADD, experts say

Supplements of the fatty acids omega 3 and 6 can help children and adolescents who have a certain kind of ADHD. These are the findings of a dissertation at the Sahlgrenska Academy, University of Gothenburg, which also indicates that a special cognitive training program can improve problem behavior in children with ADHD.
