Spotlight on These New Additions...

Great Books and Videos

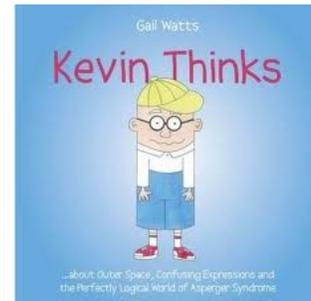

Key Learning Skills for Children with Autism Spectrum Disorders (2011)

- "Having had the privilege of working with both Dr. Whitman and Nicole DeWitt, my son has experienced firsthand the benefit of the therapies discussed in this book. These therapies allowed me to chart my son's progress and not just 'guess' how he was doing week to week. We were able to build on skills he had already mastered and keep moving forward. "

Middle School: The Stuff Nobody Tells you About (2010)

- "Haley Moss, in her own words, has created a very helpful guide for girls on the spectrum—and, indeed, any girl who experiences challenges in 'fitting in.' Her book is practical and insightful. Drawing on her own experiences, Haley provides a wonderful template for social suc-

Kevin Thinks: about Outer Space, Confusing Expressions and the Perfectly Logical World of Asperger Syndrome (2012)

- "This clever and clearly illustrated story provides an accessible and valuable resource for teachers wishing to convey to their students the behavioral characteristics of children with Asperger Syndrome. I commend it to teachers everywhere."

"We shouldn't teach great books; we should teach a love of reading"

- B. F. Skinner

Spotlight on These New Additions...

Great Books and Videos

The Potty Journey: Guide to Toilet Training Children with Special Needs, Including Autism and Related Disorders (2008)

- "I would highly recommend this program to anyone having a hard time toilet training their child. The thing I liked the most about the potty training program is that it present a well-rounded group of ideas for people to try. The idea that worked for us was taking an item away and using it as a reward for each step...Once [our son] had that mastered, the idea that he would get to the [reward] for going potty only, he learned very quickly. He is now fully potty trained..."

Prescription for Success: Supporting Children with Autism Spectrum Disorders in the Medical Environment (2006)

- "This book gives a detailed overview of the experiences a child with autism spectrum disorders may have in a medical environment. From the clear scenarios and sample activities to the concrete developmental checklist and assessment tools, this will serve as a great resource for those in the medical environment as well as parents who are working to support their children through different experiences."

Building Social Relationships: A Systematic Approach to Teaching Social Interaction Skills to Children and Adolescents with Autism Spectrum Disorders and Other Social Difficulties (2006)

- "Finally! A social skills book that combines practical sense and offers everyday solutions. Many practitioners are great about sprouting theory, but parents don't want theory; they want to know what they can do for their child today. This book lays it out in terms that are applicable for home and school!"

"A book is a gift you can open again and again"
- Garrison Keillor

The Disability Action Center is changing their name to Able South Carolina!

The Disability Action Center has some exciting news! We are thrilled to announce that we will be changing our name to **Able South Carolina**. If you are familiar with our organization then you know that we believe that people with disabilities are able to live independent, active, and self-determined lives! Our new name will be effective in February 2013. Our website address and emails will be changing as well, but the DAC information will remain attached to allow for a smooth transition.

The library is a collaborative effort between BabyNet/South Carolina Department of Health and Environmental Control, the Center for Disability Resources, the South Carolina Department of Disabilities and Special Needs, and the University of South Carolina School of Medicine Library. The CDR Library consists of books, videos, brochures, and audiotapes covering a variety of disability-related topics. The Center for Disability Resources Library is located within the University of South Carolina School of Medicine Library on Garners Ferry Road.
