- POEMs Research Summaries Update: ASD Screening
- AAIID 2016 Annual Meeting
- 13th Annual BIASC Golf Tournament
- Spectrum Family Camps

Check out these and more at http://cdrlibraryblog.blogspot.com
The Autism Spectrum, Sexuality, and the Law (2014) - This book examines how the ASD profile typically affects sexuality and how sexual development differs between the general population and those with ASD. It explains the legalities of sexual behaviour, how laws differ from country to country, and the possibility for adjustment of existing laws as they are applied to the ASD population.

Autism Logistics (2015) - Have you ever wished that your child with autism spectrum disorder (ASD) came with a manual? This book provides just that, offering clear, precise, step-by-step advice on everything you want to know, including: how to toilet train your child without pushing or pressuring, how to get your child to sleep in their own bed and through the night, what to do when your child tantrums, hits or bites and how to introduce new foods, without a fight.

Uniquely Human: A Different Way of Seeing Autism (2015) - Autism therapy typically focuses on ridding individuals of “autistic” symptoms such as problems in communicating, sensory challenges, and repetitive behavior patterns. Dr. Barry M. Prizant offers a new and compelling paradigm: the most successful approaches to autism don’t aim at fixing a person by eliminating symptoms, but rather seeking to understand the individual’s experience and what underlies the behavior.
Spotlight On These New Additions...

Understanding Autism (2015) - This is the essential reference for parents and caregivers of children with autism. Written by two leading experts in the field, it covers everything from the causes of autism to how it manifests at the various ages and stages of a child's life, as well as diet and nutrition, the importance of self-care for parents, how to cope with common problematic behaviors, conditions that can often appear in conjunction with autism, and how best to manage the child's transition to adulthood.

Kids In the Syndrome Mix of ADHD, LD, Autism Spectrum, Tourette’s, Anxiety and More! (2014) - The completely updated and expanded new edition of this well-established text incorporates DSM-5 changes as well as other new developments. The all-in-one guide covers the whole range of often co-existing neuro-behavioral disorders in children – from attention deficit hyperactivity disorder (ADHD), obsessive-compulsive disorder, and anxiety, to autism spectrum disorders, nonverbal learning disabilities, Tourette’s, sensory integration problems, and executive dysfunction.

101 Tips for Parents of Children with Autism (2014) - Based on the principles of the Miller Method, this book is filled with effective tips for solving behavioral issues promptly in day-to-day situations. Miller’s insights, compiled here and expanded upon by Theresa Smith, are based on an understanding of the cognitive and sensory needs of children with autism and how this can underlie certain disordered behaviors. This practical how-to guide will help you to identify causes of distress, foster friendships, increase focus, toilet train, stop tantrums and handle inappropriate conduct.

USPSTF: No recommendation for autism spectrum disorder screening in children aged 18-30 months

Should we screen for autism spectrum disorder in children aged 18-30 months? The U.S. Preventative Services task Force (USPSTF) concludes that there is insufficient evidence to determine whether the benefits outweigh the risks of screening for autism spectrum disorder (ASD) in children aged 18 months to 30 months for whom no concerns of ASD have been raised by their parents or careproviders.

—About the Library—

The library is a collaborative effort between BabyNet/SC First Steps to School Readiness, the Center for Disability Resources, the South Carolina Department of Disabilities and Special Needs, and the University of South Carolina School of Medicine Library. The CDR Library consists of books, videos, brochures, and audiotapes covering a variety of disability-related topics. The Center for Disability Resources Library is located within the University of South Carolina School of Medicine Library on Garners Ferry Road.

― Pablo Neruda

“You can cut all the flowers but you cannot keep Spring from coming.”
