## Spotlight on These New Additions...

Great Books and Videos

### Misdiagnosis and Dual Diagnosis of Gifted Children and Adults (2005) -

Our brightest, most creative children and adults are often being misdiagnosed with behavioral and emotional disorders such as ADHD, Oppositional-Defiant Disorder, Bipolar, OCD, or Asperger's. Many receive unneeded medication and inappropriate counseling as a result. Physicians, psychologist, and counselors are unaware of characteristics of gifted children and adults that mimic pathological diagnoses. Six nationally prominent health care professionals describe ways parents and professionals can distinguish between gifted behaviors and pathological behaviors

### Including Samuel (2009) -

Before his son Samuel was diagnosed with cerebral palsy, photojournalist Dan Habib rarely thought about the inclusion of people with disabilities. Now he thinks about inclusion every day. Shot and produced over four years, Habib's award-winning documentary film, "Including Samuel," chronicles the Habib family's efforts to include Samuel in every facet of their lives.

### The Autistic Brain (2014) -

Weaving her own experience with remarkable new discoveries, Temple Grandin introduces the advances in neuroimaging and genetic research that link brain science to behavior, even sharing her own brain scan to show which anomalies might explain common symptoms. Most excitingly, she argues that raising and educating kids on the autism spectrum must focus on their long-overlooked strengths to foster their unique contributions. The Autistic Brain brings Grandin's singular perspective into the heart of the autism revolution.

## Spotlight On These New Additions...

### Great Books and Videos

### An Early Start for Your Child with Autism (2012)

- Cutting-edge research reveals that parents can play a huge role in helping toddlers and preschoolers with autism spectrum disorders (ASD) connect with others and live up to their potential. This encouraging guide from the developers of a groundbreaking early intervention program provides doable, practical strategies you can use every day. Nearly all young kids—including those with ASD—have an amazing capacity to learn

### Bringing ABA to HOME, SCHOOL, and PLAY (2012)

- Applied behavior analysis (ABA) is one of the most effective interventions for children with autism spectrum disorders and other disabilities. Now you can bring ABA best practices into any early childhood setting with this book—your complete guide to using ABA within everyday routines to support children's learning, participation, and development.

### A Practical Guide to Autism (2009)

- Filled with useful advice for parents and caregivers of children exhibiting autistic characteristics, *A Practical Guide to Autism* provides easy-to-access, reliable information regarding the selection of doctors, schools, services, and insurance, as well as day-to-day living in the family, school, and community. Thorough and insightful, it presents lists of resources, both in print and on the Web—compiled by experts and reviewed by parents—for professionals and parents.

“Whenever you find yourself on the side of the majority, it is time to pause and reflect.”

## People with autism and learning disabilities excel in creative thinking, study shows

(The Guardian) - A new study showing that people with autism display higher levels of creativity has been welcomed by campaigners, who say it helps debunk a myth about people with learning disabilities. Scientists found that people with the developmental condition were far more likely to come up with unique answers to creative problems despite having traits that can be socially crippling and make it difficult to find jobs.

—About the Library—

The library is a collaborative effort between BabyNet/SC First Steps to School Readiness, the Center for Disability Resources, the South Carolina Department of Disabilities and Special Needs, and the University of South Carolina School of Medicine Library. The CDR Library consists of books, videos, brochures, and audiotapes covering a variety of disability-related topics. The Center for Disability Resources Library is located within the University of South Carolina School of Medicine Library on Garners Ferry Road.
