The mission of the University of South Carolina School of Medicine (SOM) Library is to provide exemplary library and information services to support the education, research and patient care programs of the School of Medicine, and to provide high quality health information to the people of South Carolina. In support of this mission, the Library will undertake the following strategic initiatives during 2014-2015.

**A. Continue to build a digital library that is accessible to users from anywhere at anytime.**
- Continue to expand Library’s electronic collections based on faculty purchase recommendations through the cancellation of low-use journals and databases.
- Ensure that electronic collections provide strong support for SOM research, patient care, and educational programs.
- Engage in consortial purchase of electronic information resources with University Libraries and other academic libraries in South Carolina whenever possible.
- Continue to maintain and develop LibGuide subject portals in partnership with SOM departments.
- Migrate online catalog system from MUSC to USC University Libraries.
- Collaborate with University Libraries on investigation of an alternative e-journal management system.
- Analyze potential benefit of implementing a discovery product which provides a single search engine for multiple electronic information resources.
- Investigate implementation of a mobile printing solution and mobile-friendly version of Library website.

**B. Provide educational services that are available at the time and place of need.**
- Continue Library Liaison service to provide customized information support for faculty.
- Continue use of web-based tutorials in existing School of Medicine curriculum components and explore integration into other areas of curriculum and faculty development.
- Create web-based tutorials to supplement in-person library classes and continue conversion of tutorials to tablet-friendly platform.
- Provide onsite educational programs for SOM preceptors in Florence and Myrtle Beach.
- Investigate expansion of e-device checkout service to include 3D printer and Google Glass.

**C. Maintain and expand partnerships, grants, and contracts.**
- Complete History of School of Medicine digitization project funded by National Network of Libraries of Medicine Southeastern/Atlantic Region.
- Provide web support for the Ultrasound Institute and the Society of Ultrasound in Medical Education.
- Partner with Palmetto Health on provision of professional librarian services to Palmetto Health Richland clinicians.
- Continue partnership with Center for Disability Resources (CDR) on CDR Library services
- Provide professional librarian services to SOM preceptors at Grand Strand Regional Medical Center.

**D. Provide a Library atmosphere for students, faculty, and staff that is inviting, comfortable, and functional and encourages community and collaboration.**
- Collaborate with Office of Medical Education & Academic Affairs and SOM students on design of study spaces in open areas on first and second floors of Library.
- Investigate feasibility of hosting an art exhibit in Library in cooperation with SOM Wellness Committee.
