Spotlight on these Additions...

AutiPower! presents a series of candid interviews with adults on the autism spectrum that offers a unique insight into their work and life experiences. Through these inspiring accounts we hear of the many ways that people with autism have overcome challenges and used their autism traits for employment success. Interviewed are autism professionals, career coaches and employers who discuss the value and great talents that people with autism bring to the workplace.

“When I got my library card, that was when my life began.”

—Rita May Brown

Based on research and extensive clinical experience, Step by Step Help for Children with ADHD will help families to adapt their parenting to the child, improving relationships and behaviours in the home and at play group. Based on research and extensive clinical experience,

Based on the principles of the Miller Method, this book shows effective tips for solving behavioral issues in day-to-day situations. Miller’s insights, are based on an understanding of the cognitive and sensory needs of children with autism and how this can underlie certain disordered behaviors. This practical how-to guide will help you to identify causes of distress, foster friendships, increase focus, toilet train, and stop tantrums.
Spotlight on these Additions...

— This inventive color picture book uses the metaphor of a train to teach basic conventions of conversation to children with autism spectrum disorders (ASDs). This highly visual approach to conversation is ideally suited to children with ASDs aged approximately 5-13.

**Exploring Friendships, Puberty and Relationships (2014)**
— This evidence-based program is designed to help young people on the autism spectrum to cope with the many challenges of adolescence. It encourages them to explore their identity, develop their friendships and to begin to think more about adult relationships, tackling the important related issues of puberty, sexuality, gender identity, body image, dress codes, self-care, safety and conventions for touching along the way.

— My Autism Book is a beautifully illustrated picture book that helps parents to explain an autism diagnosis to their child in a sensitive, positive and accurate way. This book is designed to be read with the child as a simple introduction to their diagnosis. Written by a doctor and a children’s author, the book is tailored precisely to the needs and experiences of the child with ASD aged 5 and up.

---

**Walgreens Now Offers Talking Prescription Labels**

Congratulations Walgreens! Today the national pharmacy retailer announced that it is providing talking prescription labels free of charge to customers with visual impairments in over 8,000 stores and through mail order. This initiative is a result of ongoing Structured Negotiations with the American Council of the Blind, The Illinois Council of the Blind, and the California Council of the Blind and their lawyers, Linda Dardarian of Goldstein, Borgen, Dardarian and Ho and the Law Office of Lainey Feingold.

—About the Library—

The library is a collaborative effort between BabyNet/South Carolina Department of Health and Environmental Control, the Center for Disability Resources, the South Carolina Department of Disabilities and Special Needs, and the University of South Carolina School of Medicine Library. The CDR Library consists of books, videos, brochures, and audiotapes covering a variety of disability-related topics. The Center for Disability Resources Library is located within the University of South Carolina School of Medicine Library on Garners Ferry Road.
