A Complete ABA Curriculum for Individuals on the Autism Spectrum with a Developmental Age of 7 Years Up to Young Adulthood (2014)

- The first comprehensive ABA program designed specifically for individuals on the autism spectrum aged approximately 7 years up to young adulthood, this complete step-by-step resource contains everything needed to teach advanced skills such as organizational skills, advanced self-care skills, academic and vocational skills and advanced skills for daily living—the child's transition to adulthood.

Enhancing Communication For Individuals With Autism (2015) -

How can you help children with moderate to severe autism become more effective communicators? Discover the Visual Immersion System (VIS), a practical, research-based intervention framework that taps into the strong visual processing skills many children on the spectrum have. You'll learn how to use readily available resources—from photos and symbols to apps and software—to create a customized system of visual supports that boost seven key communicative functions .

The IEP Checklist (2014)

- How can you design effective IEPs that improve student outcomes *and* meet legal requirements? This one-stop IEP guide has the answers your team needs to create great IEPs and put them into action. You'll start with a solid introduction to IEPs: their purpose, their major components, and the legal mandates they need to meet. Then you'll get a comprehensive framework for IEP development, featuring a unique, in-depth checklist that breaks the whole IEP process into small, manageable steps and walks you through each one.

“One of the deep secrets of life is that all that is really worth the doing is what we do for others.”

USPSTF: No recommendation for autism spectrum disorder screening in children aged 18-30 months

Should we screen for autism spectrum disorder in children aged 18-30 months? The U.S. Preventative Services task Force (USPSTF) concludes that there is insufficient evidence to determine whether the benefits outweigh the risks of screening for autism spectrum disorder (ASD) in children aged 18 months to 30 months for whom no concerns of ASD have been raised by their parents or careproviders

EdCeptional Kids

Open Houses

May 15, 2016 and August 28, 2016 from 5:00-7:00PM

EdVenture will open its doors for extended hours, free of charge to families of children with disabilities. Representatives of organizations that provide services to children with disabilities will be present to answer parents' questions about available community resources.

Sensory Sundays

Every Sunday from 11:00-12:00PM

This is an exclusive time for families with children with Autism Spectrum Disorders and other special needs to visit the museum. This time will allow children to enjoy the museum in a calmer and more comfortable environment without all the extra stimuli. During the hour of Sensory Sundays, there will be: A less crowded environment, light and sound reduction, designated quiet rooms, assistive devices and enhanced signage.

—About the Library—

The library is a collaborative effort between BabyNet/SC First Steps to School Readiness, the Center for Disability Resources, the South Carolina Department of Disabilities and Special Needs, and the University of South Carolina School of Medicine Library. The CDR Library consists of books, videos, brochures, and audiotapes covering a variety of disability-related topics. The Center for Disability Resources Library is located within the University of South Carolina School of Medicine Library on Garners Ferry Road.
