"Reading well is one of the greatest pleasures that solitude can afford you."

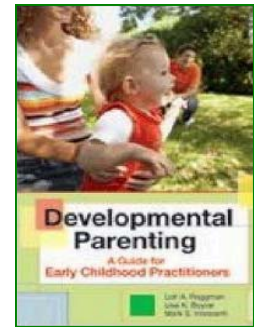

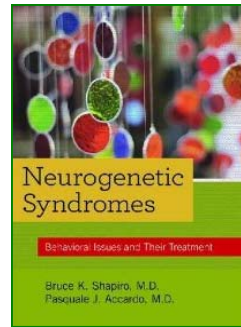

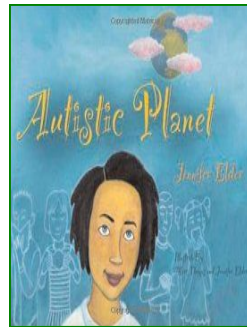

~Harold Bloom

Old Age

- ♣ South Carolina Assistive Technology Expo 2011

Spotlight on These New Additions...

Great Books and Videos

“Books are not made to be believed, but to be subjected to inquiry.”

~Umberto Eco

Autistic Planet (2007)

— “This book will inspire kids who are different and shows them that they too can succeed.” Temple Grandin. “...a magical world where trains run exactly to time, where people working in offices have rocking chairs, and where all kids dream of winning the chess World Cup.. different is ordinary, and being ‘typical’ is unheard of!”

Neurogenetic Syndromes (2010)

— An essential pediatrics textbook and professional reference, this cutting-edge volume sheds new light on neurogenetic syndromes using a promising clinical perspective: examining behavioral and psychological phenotypes, with a strong focus on the influence of genetics.

Developmental Parenting (2008)

—A comprehensive approach to developmental parenting for infants and toddlers. Home Instruction for Parents of Preschool Youngsters! Must read for professionals who support families and children in their early years. More than a 'how to' guide, it's a 'how come' guide, providing a compelling empirical and theoretical background to developmental parenting.

Job Success for Persons with Developmental Disabilities (2009)

—This book will be essential reading for profit and non-profit rehabilitation service organizations, private job development businesses, government funding agencies, special education job placement programs, transition specialists, and families of persons with developmental disabilities.

My Child Has Autism, Now What? (2011)

—‘Your child has autism’ - four small words with the power to leave parents feeling helpless, overwhelmed and confused. This concise, no-nonsense book will empower parents to regain control of the situation and take the first practical steps towards a calm and happy life with their newly-diagnosed child.

Assistive Technology for Young Children (2010)

— AT for young children with disabilities fully participate in natural, inclusive learning environments but many early childhood professionals don't get the training they need. Fill that gap with this un-intimidating, reader-friendly resource, the go-to guide to recommended AT practice for children birth to 5.

South Carolina Assistive Technology Program

South Carolina Assistive Technology Expo 2011
Tuesday, March 15, 2011, 9 am – 4 pm

Happy St. Patrick's Day

News and Events

"If you want to improve the world, first improve yourself. If you want to improve yourself, read a book."

~J. Millard Simpson

March is Brain Injury Awareness Month!

Help celebrate Brain Injury Awareness Month by coming out and showing your support of the Brain Injury Association of South Carolina at our 4th Annual Run For Thought, presented by Roger C. Peace Rehabilitation Hospital.

We would like to challenge EVERYONE to begin fundraising for this great event! This year we are using Network For Good's Charity Badge to allow participants and volunteers to do individual fundraising. You can sync it with your Facebook page, add pictures, videos, and your own picture!

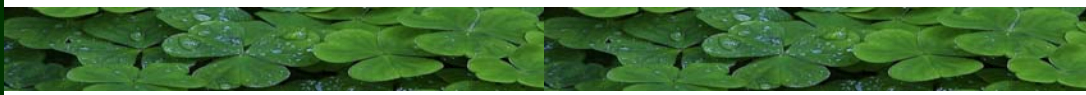

Chip Timing!

Brain Injury Association of South Carolina
Run For Thought
5K Run and 1 Mile Walk/Roll

Saturday, March 19, 2011
 Start Time- 9:00 AM
 Clemson University ICAR
 5 Research Drive
 Greenville, SC

—About the Library—

The library is a collaborative effort between BabyNet/South Carolina Department of Health and Environmental Control, the Center for Disability Resources, the South Carolina Department of Disabilities and Special Needs, and the University of South Carolina School of Medicine Library. The CDR Library consists of books, videos, brochures, and audiotapes covering a variety of disability-related topics. The Center for Disability Resources Library is located within the University of South Carolina School of Medicine Library on Garners Ferry Road.
