ICM-II Evidence-Based Medicine Resources Tutorial Handout

- Access the tutorial at: [http://uscm.med.sc.edu/tutorials/ebmtutorial](http://uscm.med.sc.edu/tutorials/ebmtutorial)
- Due date for completing the tutorial: February 4 by 11 pm.
- This tutorial will remain up to access throughout the semester.

**Tips from the tutorial:**

**Introduction to EBM Resources:**
- Formulate answerable clinical questions and possible search terms using PICO-TT:
  
  P = patient  
  I = intervention  
  C= comparison intervention  
  O = outcomes  
  T= type of question  
  T= type of study

**Accessing EBM Resources:**
- SOM Library’s Evidence-Based Medicine Resources page: [http://uscmed.sc.libguides.com/ebm](http://uscmed.sc.libguides.com/ebm)

**Cochrane Library**
- Available under Library’s Databases page or the Library’s Evidence-Based Medicine Resources page
- Browse by topic or review group for Cochrane Systematic Reviews

**Essential Evidence Plus**
- Available under Library’s Databases page or the Library’s Evidence-Based Medicine Resources page
- Mobile version available

**EBM Filters in PubMed**
- The Clinical Queries link is on the PubMed homepage under “PubMed Tools.” On the Clinical Queries page, you can access the Clinical Study Categories and Systematic Reviews filters.
- On the PubMed search results page, click Customize... under the Article types filters on the left to apply the following filters: Meta Analysis, Practice Guideline, and Systematic Reviews.
