

Journal Impact Factors

To view the impact factor of an individual journal by searching Journal Citation Reports:

1. From the Library's homepage, select **Databases**.
2. Using the drop-down Alphabetic List, select **Journal Citation Reports**.
3. Enter the title of the journal in the "Go to Journal Profile" search box and click the magnifying glass button to run your search.

To view the highest impact journals in a certain field:

1. From the Library's homepage, select **Databases**.
2. Using the drop-down Alphabetic List, select **Journal Citation Reports**.
3. On the homepage, select "**View Categories**" from the menu on the lower left.
4. After you select a category, click the **Submit** button.

The screenshot displays the 'Select Journals' interface. A 'Select Category' dropdown menu is open, showing a list of categories with checkboxes. The 'CARDIAC & CARDIOVASCULAR SYSTEMS' category is selected. Below the dropdown, there are sections for 'JIF Quartile', 'Select Publisher', 'Select Country/Territory', 'Impact Factor Range', and 'Average JIF Percentile Range'. A red arrow points to the 'Submit' button at the bottom of the form.
