New Faculty Library Orientation Tutorial Handout

Library Policies & Services
- Subject Guides are customized portals to our resources by subject, specialty, or department.   Select a guide to get started, and use the tabs at the top to navigate through the pages.

Remote Access
- You can access any of our resources from off-campus using our proxy server.
- To login with your main campus credentials, simply click "Login with Network Username and Password."   Use your main campus login, the same one you use for Blackboard.
- To use your SOM credentials, click "School of Medicine Columbia Users." This will reveal a 2nd box in which you can enter your SOM network credentials, the same ones you use to check your "@uscmed.sc.edu" email account.

E-Journals
- Use the E-Journals link on the Library's home page to search for full text e-journals.
- If a database does not provide a link to a full text article you are interested in, search the E-Journals database to see if we have access to the journal.

R2 Library
- Provides access to full text medical and allied health textbooks.
- Available on the Library's E-Books page or the Databases page.

Access Medicine
- Provides access to full text medical textbooks, a differential diagnosis tool, drug information, practice guidelines, medical news, patient handouts, and audio and video content.
- Includes case files and practice quizzes for students.
- Available on the Library's E-Books page or the Databases page.

ClinicalKey
- Provides access to over 1,000 medical textbooks, millions of images, over 13,000 medical and surgical videos, over 500 journals, drug information, practice guidelines, First Consult point of care summaries, patient handouts, and more.
- Available on the Library's E-Books page or the Databases page.

Additional Resources
- Visit our Mobile Device Resources page (http://uscmed.sc.libguides.com/mobileresources) to view our list of resources and see step by step instructions for accessing these tools on your mobile devices.
- Tools for staying up-to-date with the medical literature: http://uscmed.sc.libguides.com/currentawareness
- Evidence-Based Medicine Resources: http://uscmed.sc.libguides.com/ebm
Accessing Full Text in PubMed and Ovid MEDLINE

## PubMed

This icon [USC-SOM Online] means the library has electronic access to a particular article.

This icon [USC-SOM in Print] lets you know that the library has an article in print.

This icon [Find Full Text @ USC School of Medicine Library] appears next to every search result regardless of whether full text is available.

If you do not see a garnet USC-SOM Online icon [USC-SOM Online] for an article you are interested in, select the Find Full Text @ USC School of Medicine Library icon [Find Full Text @ USC School of Medicine Library] to search for full text access. This icon will automatically search our e-journals database for you. If no full text is available to you, there will be a link to request the item through Interlibrary Loan.

Ovid

Use the [Find Full Text @ USC School of Medicine Library] icon to search the Library's E-journals Database for full text access to the journal. If no full text is available to you, there will be a link to request the item through Interlibrary Loan.
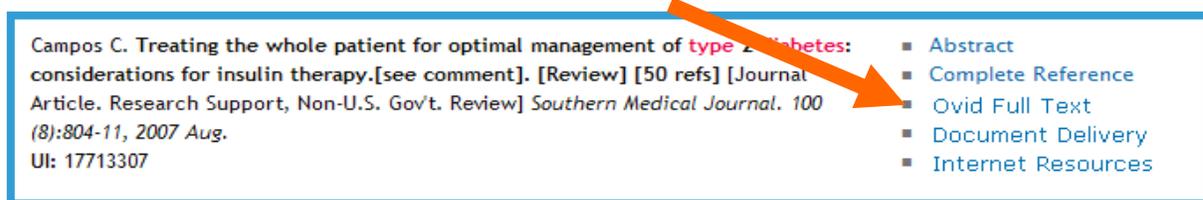

Kirk JK. Graves DE. Craven TE. Lipkin EW. Austin M. Margolis KL. Restricted-carbohydrate diets in patients with type 2 diabetes: a meta-analysis. [Review] [46 refs] [Journal Article. Meta-Analysis. Research Support, N.I.H., Extramural. Review] *Journal of the American Dietetic Association.* 108(1):91-100, 2008 Jan.
