ICM-II Evidence-Based Medicine Resources Tutorial Handout

- Access the tutorial at: https://uscmed.sc.libguides.com/ebmtutorial
- Due date for completing the tutorial: February 24
- This tutorial will remain up to access throughout the semester.

**Tips from the tutorial:**

**Introduction to EBM Resources:**
- Formulate answerable clinical questions and possible search terms using PICO-TT:
  - P = patient
  - I = intervention
  - C = comparison intervention
  - O = outcomes
  - T = type of question
  - T = type of study

**Accessing EBM Resources:**
- SOM Library’s Evidence-Based Medicine Resources page: https://uscmed.sc.libguides.com/ebm

**Cochrane Library**
- Available under Library’s Databases page or the Library’s Evidence-Based Medicine Resources page
- Browse by topic or review group for Cochrane Systematic Reviews

**Essential Evidence Plus**
- Available under Library’s Databases page or the Library’s Evidence-Based Medicine Resources page
- Mobile version available

**EBM Filters in PubMed**
- The **Clinical Queries** link is on the PubMed homepage under “PubMed Tools.” On the Clinical Queries page, you can access the Clinical Study Categories and Systematic Reviews filters.
- On the PubMed search results page, click **Customize...** under the Article types filters on the left to apply the following filters: Meta Analysis, Practice Guideline, and Systematic Reviews.
